- Click the **“Already Registered?”** link in the upper right-hand corner of the page.

Note that you will need the confirmation number you received when you originally registered for the Forum as well as your email address to log in.

Step 3 - Once you have signed into your account:

- Scroll down the “Registration Summary” page and click the blue button on the bottom-left that says **“Modify Registration”**.
- Click **“Next”** at the bottom right of the page until you reach the “Registration Items” section of your account.
- Choose which Workshops and Pre/Post-Forum Sessions you'd like to attend by clicking **“Select”**.
- Hit the **“Next”** button at the bottom of the page when you are finished. Advance to the “Order Summary” page and click the blue **“Submit”** button.
